Allowable Subject Matter

1. Claims 1-2, 4-10, 12-20 allowed.

The following is an examiner's statement of reasons for allowance: Regarding claims 1, 12, the applicants have presented persuasive arguments, see pages 6-7 of the response filed on 1/17/207 that the cited reference of De Rege does not teach or suggest the organosulfonic acid oxidizers of amended claims 1 and 12 that have polar moieties substituted on the "ortho" and "meta" position on the benzene ring of the organosulfonic acid oxidizer because given such the large number of compounds and the various types of organosulfonic acids disclosed in De Rege, one skilled in the art would not be motivated to modify the teachings of DeRege to generate a organosulfonic acid oxidizer substituted with one of the specific polar groups on the "ortho" and "meta" positions as recited in amended claims 1 and 12. Claim 20 recites a 3-amino benzenesulfonic acid as the organosulfonic acid oxidizer, which is not disclosed or suggested by DeRege.

The reason for allowance of claims 14-16 have been stated in the previous office action
